Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Pursuant to 37 C.F.R. § 1.97 and duty of candor and good faith in dealing with the PTO, the undersigned submits the following Information Disclosure Statement and accompanying Form 1449.

The references listed in the accompanying Form 1449 have been cited during the prosecution of copending foreign and other U.S. applications. When the Examiner considers the references listed in the accompanying Form 1449, the Examiner is also requested to consider the information provided in Tables 1 and 2 below. Tables 1 and 2 concern prosecution of the copending foreign and other U.S. applications noted above. Table 1 provides a list of the serial numbers for the above noted copending applications, dates on which Office Actions were mailed, and the cited art applied in such Office Actions under one or more sections of 102 and/or 103. Table 1 lists all of the applied art in the other U.S. applications, some art of which is not yet of record in the present application and some art of which may already be of record in the present application. The references in Table 1 that were cited in an Office Action of another U.S. application and are not yet of record in the present application are also cited in the attached Form 1449. If Table 1 lists references that were cited in an Office Action of another U.S. application, but are already of record in the present application, then such references are identified with an

asterisk (\*) in Table 1 to indicate that they were previously submitted to the Office in the present application. Hence, references listed in Table 1 with an asterisk are not listed on the attached Form 1449, as they are already of record in the present application.

Table 2 provides a list of the serial numbers for the above noted copending foreign applications, dates on which Search Reports or Office Actions were mailed, and the references that were cited as Category X or Category Y documents. The references that were cited in each corresponding Search Report or Office Action are also cited in the attached Form 1449. Table 2 lists all of the applied art in the other PCT and foreign applications, some art of which is not yet of record in the present application and some art of which may already be of record in the present application. The references in Table 2 that were cited in a Search Report or Office Action of a foreign application and are not yet of record in the present application are also cited in the attached Form 1449. If Table 2 lists references that were cited in a Search Report or Office Action of a foreign application, but are already of record in the present application, then such references are identified with an asterisk (\*) in Table 2 to indicate that they were previously submitted to the Office in the present application. Hence, references listed in Table 2 with an asterisk are not listed on the attached Form 1449, as they are already of record in the present application.
